

# Essential Pro CFexpress 4.0 Type A

## Ready to enter the new era of cinematography storage?

Our Essential Pro CFexpress 4.0 Type A cards redefine performance with speeds up to 1,800 MB/s read and 1,650 MB/s write, along with capacities up to 1TB, making them perfect for professional creatives who demand seamless capture and editing of high-resolution footage.

## Product highlights:

- VPG400-certified recording performance
- 256GB to 1TB capacities
- Unprecedented performance up to 2,000 MB/s - twice as fast as CFexpress 2.0 cards
- Tailored for Sony Alpha & FX cameras, including Sony a9 III, a1, a7S III, a7 IV, FX3 and FX6

## Compatible accessory:

Turn your CFexpress Type A card into a Type B one with Exascend's compatible accessories.

Essential 4-in-1 Multi-slot Card Reader (10 Gbps)

- Supports CFexpress Type B, SD, SD Express & microSD
- USB Type-C & Type-A

CFexpress Type A to B Adapter

- Supports CFexpress 4.0 & 2.0 cards

\*For CFexpress Type A to work, compatible accessories must be used together.

### CFEXPRESS 4.0 REVOLUTION

PCIe Gen 4 interface doubles the bandwidth to an unprecedented 2GB/s for Type A cards.

### NEW ERA OF PERFORMANCE

Future-proof technology that keeps up with the needs of high-performance cameras while maintaining full backward compatibility.

### VPG400-CERTIFIED

Flawless 8K video capture at frame rates up to 120fps without frame drop.

### GUARANTEED FOR LIFE

Generous limited-lifetime warranty and data recovery.

### STAY COOL

Thermal efficiency through our trademark Adaptive Thermal Control™ technology.

### EXTENDED POWER

Engineered for longer battery life, ensuring uninterrupted capture of your cinematic masterpieces.
